# NEWSLETTER

**May 1 through 15, 2002**

# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period **May 1 through 15, 2002.**

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse.html#clearinghouse](http://www.opr.ca.gov/clearinghouse.html#clearinghouse)

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte Joung and Karen Fowler (for projects in Northern California)  
Scott Morgan and Brian Grattidge (for projects in Southern California)

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

# CEQA & Planning Case Law

## **Summary of Recent CEQA & Planning Case Law**

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

**No Cases have been selected for the period of May 1 - 15, 2002.**

*Please be advised, the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.*

# Federal Notices

## Intergovernmental Review Notices (May 1<sup>st</sup> – 15<sup>th</sup>)

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

# CEQA Documents

## Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

## CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Wednesday, May 01, 2002</u></b>			
2002054002	West Coast Combat Search and Rescue Beddown U.S. Air Force Coronado--San Diego The United States Air Force (Air Force), Headquarters Air Combat Command proposes to establish a full complement of Combat Search and Rescue (CSAR) assets at Davis-Monthan Air Force Base (AFB), AZ. The proposed CSAR unit would include 3 squadrons: HC-130 fixed-wing aircraft squadron; HH-60 helicopter squadron; and a Combat-Rescue Officer (CRO)-led squadron that would include CROs, Pararescue Jumpers (PJs), and Survival, Evasion, Resistance, and Escape (SERE) specialists. The Air Force needs more CSAR assets to adequately support worldwide, deployable long-range combat search and rescue of downed aircrew members. The proposed action would begin in the fall of 2002 and the beddown would be completed by 2007. The action would add 12 HH-160 helicopters, 10 HC-130 fixed-wing aircraft, and 1,059 personnel to Davis-Monthan AFB. Building renovations and construction would be necessary to support the beddown. Training would occur in Low Altitude Tactical Navigation areas; portions of the Barry M. Goldwater Range (BMGR), and the Yuma Tactical Aircrew Combat Training System Range, and their associated restricted airspace; Jackal Low Military Operations Area (MOA); Sells Low MOA; and the Naval Air Station North Island Water Training Area off the coast of San Diego, CA. No changes to airspace structure, management, or scheduling are proposed.	EA	05/30/2002
2001101035	Monrovia Public Library Monrovia, City of Monrovia--Los Angeles The City of Monrovia proposes to demolish the existing City library building located in Library Park and to construct a new two-story 45,000 to 50,000 square foot library at the western end of Library Park.	EIR	05/31/2002
2001101149	Palo Verde Irrigation District (PVID) Land Management, Crop Rotation and Water Supply Program Palo Verde Irrigation District Blythe--Riverside, Imperial The proposed program would provide the Metropolitan Water District of Southern California with a water supply option of 25,000 acre-feet up to approximately 111,000 acre-feet of Colorado River water per year for 35 years. Under the proposed program, water normally used to irrigate farmland within the Palo Verde Valley portion of PVID would be 'saved' and an equal amount of water would be made available to Metropolitan. The water would be 'saved' through land management and crop rotation measures, which are part of the proposed program.	EIR	06/14/2002
1996013004	Cache Creek Resources Management Plan and Cache Creek Improvement Program Yolo County Woodland--Yolo Continued adoption of the Cache Creek Resources Management Plan and the Cache Creek Improvement Program, and its implementing ordinance, as approved by the County of Yolo's Planning Commission and Board of Supervisor's in August 1996.	EIS	05/31/2002

<b><u>Documents Received on Wednesday, May 01, 2002</u></b>			
2002054001	<p>Proposed Recreation Area Management Plan, Imperial Sand Dunes Recreation Bureau of Land Management Brawley--Imperial</p> <p>The project is a proposal by the U.S. Bureau of Land Management (BLM) to revise and update the Recreation Area Management Plan and Environmental Assessment for the Imperial Sand Dunes. The project would provide direction and guidance on the management of land use and resources of the ISDRA that would be consistent with current public needs and resources status.</p>	<b>EIS</b>	06/28/2002
1984071707	<p>Fink Road Landfill Expansion Stanislaus County Patterson--Stanislaus</p> <p>The Stanislaus County proposes to expand the existing permitted 219-acre Fink Road Landfill onto a portion of 2,418 acres of adjacent property owned by the County. The proposed expansion would provide a long-term disposal site for municipal solid wastes generated in the county and surrounding areas. Approximately 831 acres would be developed into a Class III landfill and ancillary facilities over a period of 55 years. The proposed operational changes include increasing the average volume of waste accepted at the existing Fink Road Landfill from 1,500 tons per day (tpd) to 5,000 tpd and increasing the peak volume of wastes from 2,400 tpd to 6,500 tpd. In addition, a 3-year bioreactor pilot/demonstration program is proposed within a 5-acre area of the landfill expansion.</p>	<b>FIN</b>	
2002011049	<p>Airport Improvement Project Santa Maria Public Airport District Santa Maria--Santa Barbara</p> <p>Construction of hangars for private aircraft storage and associated infrastructure improvements.</p>	<b>FIN</b>	
2002011102	<p>William Randolph Hearst Memorial State Beach Day Use Rehabilitation Project Parks and Recreation, Department of --San Luis Obispo</p> <p>a) Widen existing main gate entrance from 24 feet to 30 feet to facilitate movement of larger vehicles. b) Redesign and replace existing asphalt curbing to define turning radius and improve traffic flow; redefine parking spaces to accommodate new traffic patterns. c) Repave and restripe existing asphalted upper day use parking area. d) Redesign and renovate existing water supply system for both irrigation and fresh, potable water. e) Remove existing dilapidated south beach stairs; restore natural drainage patterns. f) Construct a concrete recreation vehicle/trailer pad as a Camp Host facility between the present Fishing Concession building and SLO San Simeon County Road.</p>	<b>FIN</b>	
2001042003	<p>Metrobase Facility - Harvey West Santa Cruz Metropolitan Transit District Santa Cruz--Santa Cruz</p> <p>The Santa Cruz Metropolitan Transit District circulated an NOP/NOI for an operations and maintenance facility in April, 2001. Since then, the facility was determined to be financially infeasible, and a new preferred alternative was chosen. The District is currently proposing an operations and maintenance facility to partially consolidate the District's bus maintenance, vehicle storage, and fueling</p>	<b>NOP</b>	05/31/2002

<b><u>Documents Received on Wednesday, May 01, 2002</u></b>			
	facilities. The project is the first part of a two-phase plan to provide adequate consolidation of the District's operations. A second phase will include development of additional storage, maintenance, and administrative uses on one or more sites to meet the District's long-term needs. The location, design, and financing of facilities required for the second phase are not know at this time; therefore, the second phase is not addressed within the scope of this EIR/EIS.		
2001061090	Tentative Map 5200RPL, Log No. 00-17-005; Simpson Farm Subdivision San Diego County, Department of Planning and Land Use --San Diego The project proposes to subdivide 157.71 acres into 98 single-family residential lots, 3 open space lots, 9 street lots and one commercial lot. The residential lot sizes range between 1.00 and 2.93 acres in size; the open space lots range between 0.32 and 5.59 acres in size; the street lots range between 0.35 and 8.54 acres in size; and the commercial lot is 12.51 acres in size.	<b>NOP</b>	05/30/2002
2002052004	Sacramento Regional Wastewater Treatment Plant 2020 Master Plan Project (Control No: 97-PWE-0599) Sacramento County --Sacramento The Buffer Lands Master Plan (BLMP) was prepared as a part of the 2020 Master Plan to establish a long-term, cost effective management direction for the buffer lands. The BLMP provides guidance to Sacramento Regional County Sanitation District (SRCSD) staff for maintaining a buffer zone surrounding the treatment plant, and for protecting and enhancing the area's environmental resources. To provide long-range direction for management wastewater facility development, the SRCSD Board of Directors (Board) authorized the preparation of a 20-year wastewater treatment plant master plan in 1990. This master plan, with a planning horizon through the year 2010, was published in 1992. In late 1997, work began to update the master plan to reflect changes in regulatory requirements and to extend the planning horizon through the year 2020.	<b>NOP</b>	06/03/2002
2001092029	New Elementary School Site No. 4 - Expansion Project (Former Dewey Alternative School Site) Oakland Unified School District Oakland--Alameda Expansion of an exisiting school site from 0.73 acre to 2.6 acres, requiring street closure, property acquisition, demolition and new construction of an urban site.	<b>Neg</b>	05/31/2002
2002051001	GPA No. 02003, Zone Change No. 02003, Admin Permit Application No. 02021 Merced County Atwater--Merced The project proposes to grant a zone change from A-1 (General Agriculture) to C-2 (General Commercial), a General Plan Amendment amending Atwater Specific Urban Development Plan (SUDP), UR (Urban Reserve) to C (Commercial) and an Administrative Application to allow the construction of a 52,975 square foot Mini-Storage Facility.	<b>Neg</b>	06/04/2002
2002051002	Library Grant Application Kern County Planning Department --Kern Board of Supervisor's approval of authorization submission of grant application to the California Reading and Literacy Improvement and Public Library Construction and Renovation Bond Act of 2000 for construction of the Frazier Park Library.	<b>Neg</b>	05/21/2002

2001012083	<p>Nearshore Fishery Management Plan Fish &amp; Game Commission --Del Norte, Humboldt, Mendocino, Sonoma, Marin, ...</p> <p>The Marine Life Management Act (MLMA) sets sustainability as an overall goal for the fishery management system (Fish and Game Code (FGC) section 7056). Within the definition of sustainability, the MLMA includes not only the maintenance of fishery populations, but also the fullest possible range of present and long-term benefits, ecological benefits, and biological diversity (FGC section 99.5). The MLMA calls for achieving its primary goal of sustainability by meeting several objectives:</p> <ul style="list-style-type: none"> <li>-preventing overfishing,</li> <li>-rebuilding depressed stocks,</li> <li>-ensuring conservation, and</li> <li>-promoting habitat protection and restoration</li> </ul> <p>To this end, fishery management plans (FMPs) must contain measures that will be used for the conservation and management of the fishery (FGC section 7082). Among other measures, the MLMA mentions area and time closures, size limits, gear restrictions, and restricted access. The Department proposes to meet these requirements and the goals and objectives of the Nearshore Fishery Management Plan (NFMP) by employing five management measures. Each of these measures addresses an aspect of fishery management; together they form an integral approach to meeting the MLMA guidelines for sustainability.</p>	<b>Oth</b>	06/14/2002

	activity.		
2002058003	Clay Oval Track Area Conversion to BMX Track and Skateboard Facility Parks and Recreation, Department of --Sacramento Construction of this project will be limited to the area of an existing facility within Prairie City SVRA. The project will change an existing motorized clay oval track area into a non-motorized recreation area with a BMX bike track and a skateboard facility. The project will consist of grading and designing fill material of the existing clay oval track for the BMX track. A second part of this project will be to construct a concrete Skateboard facility with a six foot high chain-link fence, also within the existing clay oval area. An existing dirt 100-car parking lot will receive an additional layer of aggregate base material with ADA access to the redesigned facility. A concessions building will be installed to serve both venues for fee collection, food and parts sales. A restroom building will be installed near the concessions structure. The project will include landscaping with shade ramadas, bleachers, shade trees, a grass play area, lighting, picnic tables and a tot-lot.	<b>NOE</b>	
2002058004	USFS-Mendocino NF Resource Management 01/02 Parks and Recreation, Department of --Lake The purpose of this study is to determine the effects of OHV sound on the Northern Spotted Owl (NSO). In the proposed second phase of the research, a field crew will be required to locate and track nesting pairs of NSOs. Once NSOs are located, the researchers will measure the stimulus or behavioral response on breeding owls using a variety of OHV generated sound from different distances. Information derived from this research will be used to determine if there are any adverse effects from OHV generated sound and provide better biological data for managing OHV use within NSO habitat.	<b>NOE</b>	
2002058005	USFS-Mendocino NF Operation and Maintenance 01/02 Parks and Recreation, Department of --Lake One year of supplemental funding for O&M to ensure sustained OHV opportunities and management. This request includes funding in support of conservation, enforcement and rehabilitation activities associated with OHV recreation opportunities and facilities within the Mendocino NF. This request also includes funding to carryout the wildlife habitat and soils monitoring programs associated with current OHV Grant and Cooperative Agreement Program Regulations. The amounts will be allocated as follows: Grindstone RD (\$310,000)-Conservation \$128,000, Enforcement \$27,000, Facility Maintenance \$119,000, and Administration \$6,000; and Upper Lake RD (\$312,000)-Conservation \$126,000, Enforcement \$85,000, Facility Maintenance \$95,000, and Administration \$6,000.	<b>NOE</b>

	operations and maintenance.		
2002058007	USFS-Angeles NF Operation and Maintenance 01/02 Parks and Recreation, Department of Los Angeles, City of--Los Angeles Operation and Maintenance (O&M) Project that will supplement existing forest funding (\$169,000) for the forest-wide Off-highway Vehicle (OHV) program. The application requests the following: 1) Law enforcement patrol using motorcycles and 4WD vehicles; 2) a monitoring program to monitor impacts of OHV use and to comply with the State standards for conservation of soils and wildlife habitat; 3) maintenance of OHV routes, staging areas and trailheads, Back Country Discovery Trail and signs; 4) aerial photography and monitoring of archeological sites at Rowher Flat; 5) public information; (maps and brochures) participation in OHV shows, fairs, and special events; 6) supplies for construction of physical barriers and signing; and 7) volunteer management.	<b>NOE</b>	
2002058008	USFS-Plumas NF Operation and Maintenance 01/02 Parks and Recreation, Department of Quincy--Plumas One year of summer operation and maintenance, Federal law enforcement, conservation, resource monitoring, and signing associated with OHV opportunities and facilities within the Plumas NF. Designated OHV routes will be monitored for compliance with state standards for soil conservation. A plant and wildlife habitat-monitoring program will be established and implemented. OHV Program Funds will be used for the maintenance of designated OHV routes and the repair or rehabilitation of damage caused by illegal OHV activities identified during monitoring. Funds will be used to purchase maintenance and OHV safety equipment, maps, brochures, signs, and materials for the construction of physical barriers.	<b>NOE</b>	
2002058009	USFS-San Bernardino NF Operation and Maintenance 01/02 Parks and Recreation, Department of San Bernardino--San Bernardino One year of funding for operation, maintenance, law enforcement, visitor information, resource conservation, and restoration activities associated with OHV opportunities and facilities within the San Bernardino National Forest. Funds will be used to purchase supplies and materials for signing, erosion control, dust abatement, fencing and barrier construction, toilet renting and servicing, maps, safety equipment, plant propagation supplies, and maintenance and repair of equipment and vehicles.	<b>NOE</b>	
2002058010	Transfer of coverage to El Dorado County APN 15-213-21 Tahoe Conservancy --El Dorado Project consists of the sale and transfer of 125 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	<b>NOE</b>

<b><u>Documents Received on Wednesday, May 01, 2002</u></b>			
2002058011	Transfer of coverage to El Dorado County APN 15-311-13 Tahoe Conservancy --El Dorado Project consists of the sale and transfer of 410 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	<b>NOE</b>	
2002058012	Transfer of coverage to El Dorado County APN 32-322-04 Tahoe Conservancy --El Dorado Project consists of the sale and transfer of 128 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	<b>NOE</b>	
2002058013	Transfer of coverage to El Dorado County APN 33-862-06 Tahoe Conservancy --El Dorado Project consists of the sale and transfer of 480 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	<b>NOE</b>	
2002058014	Renovation and Expansion of the Frances Albriery Recreation Center Berkeley, City of Berkeley--Alameda This project proposes to renovate and expand the existing 12,000 sq. ft. Frances Albrier Recreation Center in San Pablo Park, which is located in the southwestern neighborhood of Berkeley. The renovation will include a minor re-configuration of the facility's main entrance and improvements to an existing administrative office and game room (2,700 sq. ft.). The expansion of 9,950 sq. ft. will include a gymnasium, a weight/exercise room, and two locker rooms and bathrooms. These improvements will increase recreational amenities available to residents in South and West Berkeley by providing a multi-use building that offers a variety of youth and adult programs.	<b>NOE</b>	
2002058015	Pavement Management Plan - Phase I Bishop, City of Bishop--Inyo This project consists of pavement overlays and drainage improvements; adjustment of existing valve boxes, manholes and drainage structures; and pavement markings. The project does not expand any existing facilities or uses, and does not impact any scenic resources.	<b>NOE</b>	
2002058016	Pavement Management Plan - Phase II Bishop, City of Bishop--Inyo This project consists of pavement overlays and drainage improvements; adjustment of existing valve boxes, manholes and drainage structures; and pavement markings. The project does not expand any existing facilities or uses, and does not impact any scenic resources.	<b>NOE</b>

2002058017	Phase 1 Construction of CP Coast Junction Capitol Corridor Joint Powers Authority Santa Clara--Santa Clara Construction of additional track from CP Coast through Newhall Yard and infrastructure.	<b>NOE</b>	
2002058018	Slide and Drainage System Repair Fish & Game #3 --San Mateo The project is located along Route 92 in San Mateo County between PM 0.91 and PM 2.53. The work will occur in Pilarcitos Creek and on seasonal unnamed drainages that are tributary to Pilarcitos Creek. All work will take place during the summer and fall months when the seasonal drainages are dry. Pilarcitos Creek continues to flow year round although at very low flow levels. Plywood wildlife exculsion barriers will be erected around work areas in Pilarcitos Creek which will isolate the work area from any waters and confine disturbance (see attached plans for specific construction details). At PM 0.91 a soldier pile wall approximately 20 meters long will be constructed and a new drainage system installed by replacing the existing outlets and drainage pipes with new ones in the same location. Due to a landslide and subsequent erosion, cut and fill will be necessary in addition to the soldier pile wall to repair the existing gully. A private dirt access road between the highway embankment and Pilarcitos Creek will be trenched to replace the existing 305 mm plastic pipe with a 600mm CMP. Upon completion of the installation, the road will be restored and stabilized. The new 600mm pipe will outfall onto RSP placed in the bed and bank of Pilarcitos Creek. The RSP will be wrapped in RSP fabric to reduce silt discharge into the Creek. The total amount of RSP to be placed in the Creek at this location is approximately 5 m3. At PM 0.92 a second wall will be constructed adjacent to the eastbound lane of Route 92. The proposed length of this wall is 38 meters and it will be tied into the soldier pile wall at PM 0.91. At PM 2.5 the existing drainage system will be replaced by installing new inlets and a new 450mm CMP to discharge the water collected from the inlets. The new 450 mm pipe will outfall onto RSP placed in the bed and bank of Pilarcitos Creek. The RSP will be wrapped in RSP fabric to reduce silt discharge into the Creek. The total amount of RSP to be placed in the Creek at this location is approximately 5m3. At PM 2.53 the existing headwall will be replaced with an inlet on the westbound side of Route 92. A second inlet and RSP will be installed on the embankment below the eastbound lanes. A 450mm CMP will collect drainage from the inlets and discharge onto RSP. This pipe will not discharge into Pilarcitos Creek but onto RSP that have been placed on RSP fabric to further reduce soil erosion. To lay the pipe, there may be some cut and fill and it may involve vegetation removal from the slopes above Pilarcitos Creek. Issuance of a Streambed Alteration Agreement Number R3-2002-0115 pursuant to Fish and Game Code Section 1601.	<b>NOE</b>

<b><u>Documents Received on Thursday, May 02, 2002</u></b>			
1999081019	Lagunitas Mixed Use Development Carpinteria, City of Carpinteria--Santa Barbara The project involves a mixed use development consisting of 160,000 square feet of business park development and 73 or 74 residential units. The business park component would be located in the southern half of the site, while the residential component would occupy the northern half. The project site is bisected by a drainage channel known locally as Lagunitas Creek. The project would include restoration of the channel through removal of nonnative plants and planting with native riparian vegetation.	<b>EIS</b>	06/17/2002
2002051004	Draft Yosemite Fire Management Plan/EIS National Park Service --Mariposa This Draft Yosemite Fire Management Plan/EIS presents four alternatives (including no action that propose to deal with the complex problems of fire hazard reduction in the wildland-urban interface, while protecting, restoring, and maintaining, the historic and natural systems that lie outside the developed areas of the park.	<b>EIS</b>	06/17/2002
2002051008	Combined Array for Research in Millimeter-Wave Astronomy (CARMA) University of California, Berkeley --Inyo The California Institute of Technology (Caltech), on behalf of its project partners including the University of California, is proposing that the USDA Forest Service grant it a Special-Use Permit for a proposed project in the Inyo National Forest to develop a site and operate an array of radio telescope (antennas) for the purposes of high-level research and education over a period of 25 years.	<b>NOP</b>	05/31/2002
2002051005	City of Fresno General Plan Housing Element Fresno, City of Fresno--Fresno Update of City of Fresno General Plan Housing Element prepared in response to State of California Statutes (Gov. Code Art. 10.6, Sects. 65589.8 through 65589.8). The element contains goals, policies and programs to provide an adequate housing supply to meet needs of various population groups.	<b>Neg</b>	05/31/2002
2002051006	Twin Oaks Farm San Diego County Department of Planning and Land Use San Marcos--San Diego The proposed project is an oversize barn and agriculture storage building. The project proposes a 6,560 square foot metal/wood stable building. The stable will consist of an office and various equestrian facilities. In addition, a 3,200 sf hay barn will be located directly to the east of the stable building.	<b>Neg</b>	05/31/2002
2002051007	Municipal Code Amendments Santa Maria, City of Santa Maria--Santa Barbara Technical amendments to Titles 1, 2, 5, 8 and 9 of the Santa Maria Municipal Code.	<b>Neg</b>	05/31/2002

	open pit/multibench/side hill/drill and blast mining techniques. Implementation of the request would annex and supercede a previous mining entitlement known as the "8 West" area permitted under CUP 1, Map 236. Implementation would also overlap a portion of an adjacent mine boundary known as the "104" area permitted under CUP 5, Map 236. However, the affected annexation area of the "104" mine boundary would not supercede any previous mining entitlements since none existed within the area of overlap. The applicant estimates that over 1,000,000 tons of limestone, dolomite, shale and other materials suitable for cement manufacturing would be removed per year, with a total anticipated mineral commodities production of 500,000,000 tons, over the anticipated 150-year life of the project. Maximum depth of excavation would be 600 feet. No phasing is proposed. Method of water supply (for dust control) and sewage disposal would be via existing offsite well and sewage disposal systems, respectively. Access would continue to be by dirt haul roads off a five-mile paved entrance road from State Highway 138.		
2002052009	Application to Appropriate Water No. 30627 State Water Resources Control Board, Division of Water Rights St. Helena--Napa The proposed reservoir has been built as an offstream facility; no Point of Diversion (POD) has yet been constructed specifically for this reservoir. The proposed Place of Use covers approximately 180 acres; the applicant has begun planting this acreage in vineyard. The Purpose of Use is irrigation and frost protection of the vineyard. A total of three POD's, including two from existing licensed water rights (PODs 1&2 below) and new POD 3, are included in this application, though not all of them may be used (POD 3 on Wood Canyon is expected to be the primary source).	<b>Neg</b>	06/03/2002
2002052010	Proposed Access Route for California-Oregon Transmission Project (COTP) Transmission Agency of Northern California --Shasta TANC, the Western Area Power Administration (Western), the California Department of Water Resources, the City of Vernon, and several California utilities own the COTP, an existing 500 kilovolt transmission line. The line is approximately 340 miles in length and extends from near Malin, Oregon south to the Tesla Substation located in central California. TANC is the Project Manager of the COTP and Western is responsible for operation and maintenance activities along the line. This new access route is necessary because of flooding-related, irreparable damage to the road within the existing access route to Tower 428. COTP Tower 428 is located southwest of Big Bend, California and east of the Pit.	<b>Neg</b>	06/17/2002
2002052012	Bishop Ranch Heliport - 2641 Camino Ramon San Ramon, City of San Ramon--Contra Costa Sunset Land Company is requesting Land Use Permit approval to locate a Heliport (for landing/take-off only) on top of the south 3-story parking structure of the Bishop Ranch 3 Office Complex. A previous request to establish a heliport on the north 3-story parking structure of Bishop Ranch 3 has been withdrawn.	<b>Neg</b>	06/04/2002

2002058033	HHWVAR990503R2-Three-Year Variance Renewal to Merced and Stanislaus Counties for their Used Oil Collection Toxic Substances Control, Department of --Stanislaus Variance to Merced (lead agency) and Stanislaus County sponsored collection centers and participating generators for hazardous waste manifesting and transportation requirements. The variance is limited to the acceptance of and transportation of up to 55 gallon of agricultural used oil by Merced and Stanislaus County agricultural businesses. The collections provide appropriate means of disposing of hazardous waste.	<b>NOE</b>	
2002058034	Three-year Variance Renewal to the City of Huntington Park to Conduct Residential Household Hazardous Waste (HHW) collections - HHWVAR981203R Toxic Substances Control, Department of Huntington Park-- Variance to the City of Huntington Park from hazardous waste facility permit requirements. The three-year variance authorizes Huntington Park to conduct (residential) collections of Household Hazardous Waste (HHW). The collections provide appropriate means for the elderly and handicapped, and others unable to participate in the regular HHW collection program of disposing of hazardous waste. The variance is based on the evidence that: 1. The residential collections will meet strict standards and wastes are delivered to an authorized HHW collection facility; 2. Only personnel trained in hazardous waste management shall handle or package hazardous waste; and, 3. All collected wastes will be transported by a registered hazardous waste hauler to a HHW collection facility for further management.	<b>NOE</b>	
2002058035	Class 1 Permit Modification for Informational Changes for Kinsbursky Brothers Supply, Incorporated Toxic Substances Control, Department of --Orange Kinsbursky Brothers Supply, Incorporated (KBSI) requested a class 1 permit modification to a change in the facility boundaries, information and new handling of cathode ray tube (CRT) materials.	<b>NOE</b>	
2002058036	Picnic Stoves Rehabilitation Parks and Recreation, Department of --Marin Rehabilitate historic stoves in the Azalea Picnic Grounds. Remove damaged grills. Clean existing anchor rails. Replace anchor rails if necessary. Grind smooth welding residue. Weld new grills to existing anchor rails. Replace missing and broken firebrick. Repair or replace missing stonework. Mortar and grout will be tinted to match historic materials. The project will preserve the historic fabric of the picnic grounds.	<b>NOE</b>	
2002058037	Fire Hydrant Replacement - Group Camp Parks and Recreation, Department of --San Luis Obispo Reinstall previously removed fire hydrant located in the Group Camp at Morro Bay State Park to improve fire protection and public safety in area. The reinstallation of the fire hydrant will require excavating around existing flange and water pipes to a depth of approximately 3 feet to determine what parts will be necessary.	<b>NOE</b>

<b><u>Documents Received on Monday, May 06, 2002</u></b>			
	designed to achieve the maximum reductions yet provide a reasonable amount of time to design and install the required controls. For operators needing an extended compliance schedule a stricter emission standard is proposed as a trade off for installing the controls at a later date. The control equipment for each compliance option is essentially the same, but the Enhanced option requires more attention to system operation and maintenance. The rule states the required emission limit but would allow, as a compliance alternative, the use of other control devices capable of achieving the required emission reductions in lieu of installing an SRC system. Alternative control options include the SCONOX by Goal Line Environmental Technologies and the XONON flameless combustors by Catalytica.		
2002032130	Little Dry Creek Siphon Project Western Canal Water District --Butte The purpose of the project is to improve the water-conveyance facilities of Western Canal Water District's Main Canal by constructing a siphon under Little Dry Creek and restoring the creek channel to its natural contours and functions, while maintaining water deliveries to WCWD's agricultural and wildlife refuge customers.	<b>NOD</b>	
2002059017	Rancho Cucamonga Central Park Rancho Cucamonga, City of Rancho Cucamonga--San Bernardino The 102.00 acre (net) Central Park will become the nucleus of the City's comprehensive park system. It will balance an open park setting with a diversity of cultural, educational and recreational facilities. The Omni Center will include a library, a performing arts center, community center, fine arts center, with a central plaza as the unifying element. The sports center will include a tennis complex, swim complex, and gymnasium. Large open space areas provided opportunities for picnicking, gathering, jogging, certs in the park, interpretive gardens, nature trails, play areas for children of all ages, and special events.	<b>NOD</b>	
2002058039	Orange County Water District Mini-Anaheim Inflow Improvement Project Orange County Water District Anaheim--Orange The Mini-Anaheim basin is a groundwater recharge basin. Presently only one method of water source exists to the basin. By replacing and reconstructing two existing structures, the district can provide two alternative water sources. Neither structures' capacity will be increased. The replacement of an existing pipeline turnout and reconstruction of an existing concrete delivery structure would provide two alternative water sources to the Mini-Anaheim Basin.	<b>NOE</b>	
2002058040	Well 3 Replacement for California - American Larkfield District, Water System No. 4910023 Health Services, Department of Santa Rosa--Sonoma California-American Water Company (Cal-Am) owns and operates the potable water supply source, treatment, and distribution system in the Larkfield area, which is located north of Santa Rosa, in Sonoma County, California. Well 3 is in one of the primary water sources for the system. A recent video log of the well showed multiple holes in the well screens. The lower portions of the well have been filled with sediments, which makes the well unusable. This project is to drill and construct a replacement well, to be called Well 3A. The original Well 3 is located in the northwest corner of Cal-Am's storage lot located at 530 Mayfield	<b>NOE</b>

2002031137	<p>Eastvale Master Drainage Plan (MDP) Revision No. 2 and Eastvale Area Drainage Plan (ADP) Revision No. 2 Riverside County Flood Control and Water Conservation --Riverside</p> <p>The Eastvale MDP is a planning document prepared by the Riverside County Flood Control and Water Conservation District (District) that describes the type, size and alignment of the major existing and proposed flood control facilities located within the western Mira Loma Area. The MDP Revision No. 2 depicts a stormwater drainage system that, when constructed in conjunction with ultimate street improvements, will contain the 100-year flood discharge and alleviate the primary sources of flooding within the MDP area. The Eastvale MDP more particularly describes the proposed construction of backbone drainage facilities that will be needed to provide adequate flood protection within the proposed project area. The Eastvale MDP will serve as a guide to the long term planning for the construction of the proposed drainage facilities. It will also act as a guide for the location and size of drainage facilities that need to be constructed by the District and/or others as the area develops, or facilities that need to be constructed to resolve existing flooding problems within developed areas. The ADP is a funding mechanism used to help finance the construction of the MDP facilities.</p>	<b>NOD</b>

1994011046	Shoreline and Coastal Bluff Management Strategies Solana Beach, City of --San Diego In 1994 the City of Solana Beach adopted a Shoreline and Coastal Bluff Ordinance superseding the previously existing and inherited County standards. Since then, in response to increased rates of bluff erosion and loss of beach sand associated with El Nino, concern has also increased over balancing public safety, property rights and environmental resources. The EIR revisits issues as to how, if at all, it may be appropriate to modify the existing Ordinance or seek other policy alternatives for managing the 1.7 mile city coastline. Policies such as repealing the existing Ordinance, sand replenishment/retention, planned coastal retreat and continuing existing policies are examined.	<b>EIR</b>	06/24/2002

2001112076	County of Sonoma Human Services Department Center/Family Support Department Offices EIR Santa Rosa, City of Santa Rosa--Sonoma Approximate 275,000 square foot 3 story office building with approx. 1,500 space 5-story parking structure for Sonoma County Human and family support services.	<b>EIR</b>	06/27/2002
1996042019	Village of Zinfandel General Plan Amendment and Zoning Ordinance Amendment Sacramento County The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number R2-2001-574 Pursuant to Section 1603 of the Fish and Game Code to the project applicant, Russ Davis Representing Elliott Homes, Inc. Realignment of creek, filling portion of existing channel, install three temporary crossings and one permanent road crossing as part of a 620 acre development. Portion of project subject to streambed alteration agreement will not have a significant effect on the environment.	<b>FIN</b>	
2002051034	Fairview Street Widening Project Santa Ana, City of --Orange Fairview Street, between Garden Grove Boulevard and Fifth Street, currently has two lanes in each direction, a raised 14-foot median, and sidewalk improvements. The Fairview Street Bridge over the Santa Ana River would also be widened on both sides to accommodate a raised median, and a third lane and sidewalk in each direction. A number of residential and business displacements would occur as a result of the project. Three different alignment alternatives have been developed for detailed evaluation in the EIR. Alternative A would concentrate widening on the southbound or west side of Fairview Street between Garden Grove Boulevard and the Santa Ana River Bridge. Alternative B would widen on the northbound or east side of Fairview Street. Alternative C is designed to minimize full property takes to the extent feasible by widening on either side depending on the available right-of-way. All three alternatives include the same proposal for crossing the Santa Ana River where widening of the bridge is proposed to occur on both sides. The same proposal for widening between the Santa Ana River Bridge and Fifth Street is also to be used for all three alternatives. Widening along this segment of the project would require partial takes of three parcels on each side of the street for a total of six partial takes in this section of the proposed project.	<b>NOP</b>	06/06/2002
2002051039	Surface Mining Reclamation Plan PMR 02-002 Tulare County Resource Management Agency --Tulare A Surface Mining Permit and Reclamation Plan to excavate and process sand and gravel (and possible gold recovery) and to operate concrete and asphalt mixing plants and recycling plants on a 280-acre site with reclamation to a lake surrounded by riparian habitat. Total mineral production from the site is expected to be approximately 15 million tons, with an annual production ranging from 250,000 to 1,000,000 tons. It is proposed that the project will be implemented over a period of 20 years.	<b>NOP</b>	06/06/2002

2002052030	Tinker Business Center Placer County Planning Department Rocklin--Placer Proposed development of four buildings totaling approximately 772,000 sq. ft. for light industrial/warehouse use.	<b>Neg</b>	06/10/2002
2002052031	Joint Transit Improvement Project - Bart/ Bay Fair Mall Pedestrian Bridge Alameda County San Leandro--Alameda A joint transit improvement project between Alameda County, City of San Leandro Redevelopment Agency, and BART to build a pedestrian/ bicycle bridge from Bay Fair BART station to Bay Fair Mall. Improvements include a new 42-foot long by 20-foot wide pedestrian bridge, sidewalks, lighting, landscaping, signage, bus shelter/benches, bike racks, and fencing. The existing pedestrian bridge may remain, with construction of a new pedestrian bridge approximately 250 feet up-stream from the current bridge's location.	<b>Neg</b>	06/10/2002
2002052032	Pioneer Junction R.V. Park Amador County --Amador The proposed project is a 150-space RV Park with appurtenant facilities including an office, manager and employee housing, and operation and maintenance facilities. The proposed RV units will be semi-permanent cabin structure approximately 400 square feet in size, and are intended to be used as vacation cabins. The RV units will be owned by individual patrons who lease the RV spaces from the property owner. In addition to the RV spaces, a single pond located on the westerly side of the entrance road is proposed. The project requires a General Plan Amendment from R-S, Residential Suburban to O-R, Open-Recreation, a Zone Change from "R1A," Single Family Residential and Agricultural District to "T1," Trailer-Camp District, and a Conditional Use Permit. The proposed project is located on the south side of S Highway 88, approximately one mile east of Pioneer.	<b>Neg</b>	06/07/2002

	0.55 acre is wetland/riparian habitat.		
2001051065	Consolidated Redevelopment Project Plan Buena Park, City of Buena Park--Orange The proposed Consolidated Redevelopment Project entails: 1) adopting a new redevelopment plan incorporating additional area referred to as Project Area IV, and 2) merging the Agency's three existing redevelopment project areas including the Central Business District Project, Project Area II, Project Area III and the new Project Area IV into a single redevelopment project area referred to as the Consolidated Project. The adoption of the new Project Area IV will enable the Agency to renovate and rehabilitate aging commercial and residential areas of the City. The merging of the existing project areas and Project Area IV will decrease administrative burdens and add financial flexibility to the Agency, along with the revenues the agency can receive from the Central Business District Project Area. The 3,940-acre Consolidated Project Area includes 2,921 acres of Project Area IV and 1,019 acres of the existing project areas. The proposed Project is in accordance with the standards of the California Community Redevelopment Law (CRL), Health and Safety Code Section 330000, et seq.	<b>NOD</b>	
2001072068	Napa Sanitation District Recycled Water Pipeline Napa Sanitation District Napa--Napa The operator proposes to install a reclaimed water line from the Soscol Waste Water Treatment Plant (WWTP) to various locations within its jurisdiction. The project proposes to cross four tributaries to the Napa River: Soscol Creek, an unnamed tributary to Soscol Creek, Bedford Slough, and Asylum Slough in Napa County. The first crossing is under Soscol Creek being done by jack and bore. The second crossing will be done by open cut trench within a gravel access road. The third crossing is of Bedford Slough, a manmade drainage channel that empties into the Napa River. This crossing will be done by jack and bore. The fourth crossing will be accomplished by horizontal directional drilling. CDFG is executing a Lake and Streambed Alteration Agreement Number R3-2002-0078 pursuant to Section 1601 of the Fish and Game Code to the project operator, Tim Healy/Napa Sanitation District.	<b>NOD</b>	
2002021123	San Marcos CDF Forest Fire Station Relocation Project Forestry and Fire Protection, Department of Escondido--San Diego The California Department of Forestry and Fire Protection (CDF) proposes to vacate the existing San Marcos Forest Fire Station in San Marcos and relocate to this site in the city of Escondido. The new facility will consist of a 2,330 sf barracks, a 1,697 sf apparatus building, and a 100 sf fueling station.	<b>NOD</b>

2002031061	<p>South Operations Headquarters Replacement Project Forestry and Fire Protection, Department of Moreno Valley--Riverside</p> <p>The proposed project would construct a new headquarters and operations center complex (approximately 46,393 square feet) in Riverside County to replace the existing headquarters and operations center facility located at 2514 Mulberry Street in Riverside. The 10-acre site, which was historically used as a playing field for March Air Force Base, is now owned by the USFS. CDF will lease the land under a special use permit (Memorandum of Understanding to Coordinate Interagency Activity Related to Development of an Operations Coordination Center at March Air Force Base between USFS Pacific Southwest Region and CDF, September 24, 1999.) The site is generally located west of Riverside Drive (one of two north entrances to the former March AFB), south of Cactus Ave., and north of the intersection of Castle Street and Travis Street. Existing structures to be removed consist of nine small grandstands, two metal backstops, two field goals, and three lawn care sheds. New buildings would include an office/command center (12,335 gross square feet[gsf]), an administration building (20,874 gsf), a construction/engineering office building (3,498 gsf), an electrical shop (1,581 gsf), a mechanical shop (2,602 gsf), an auto shop (2,775 gsf), a central boiler/generator building (1,385 gsf), and a groundskeeper/hazardous materials building (1,320 gsf). The complex would house an emergency generator with fuel storage, a 120-foot-high communication tower, and telecommunications equipment. The project would also necessitate the establishment of new water, electrical, and sewer lines on the site. Some utility connections may require offsite improvements. Site work would include the installation of paving, curbs and gutters, landscaping, fencing, and signs. A fueling station would accommodate a single pump and two 1,000 gallon fuel tanks.</p>	<b>NOD</b>	
2002032117	<p>San Francisquito Creek Levee Restoration and Floodwall Reconstruction San Mateo County Flood Control District East Palo Alto--San Mateo</p> <p>Restore the east levees along San Francisco Creek from approximately 4500 feet north of Highway 101 to their 1958 design elevations, remove and replace the east floodwall 1070 feet south of West Bayshore Road and one layer of sack-crete to the existing floodwall 300 feet beyond the replaced floodwall.</p>	<b>NOD</b>

	CDFG is executing a Lake and Streambed Alteration Agreement Number R3-2001-1068 pursuant to section 1601 of the Fish and Game Code to the project operator, Andy Lief/South County Housing.		
2002059008	<p>Opportunity Properties-Tract 29675 Riverside County Planning Department --Riverside</p> <p>CDFG is executing a Lake and Streambed Alteration Agreement (SAA #6-2001-213) pursuant to Section 1603 of the Fish and Game Code to the project applicant, Opportunity Properties. The applicant proposes to construct 253 single-family residential lots, 1 park site, 1 detention basin, and 1 open space lot located on an approximate 90-acre site, west of Highway 79 (Winchester Road) and east of Lean Road in the unincorporated community of French Valley. The project includes the construction of Algarve Avenue from Winchester Road to provide access to the tract and the widening of Winchester Road as required under County recommended project conditions. The existing storm drain facility, which involves an unnamed drainage that flows under Winchester Road, through an existing storm drain channel, and into the southeastern portion of the site, is comprised of an 80-foot long, triple 10-foot by 9-foot box culvert. The project proposes to extend the culvert approximately 140 feet to allow the road improvements. The jurisdictional area within the project footprint varies from 15 to 36 feet in width, with a total length of 220 feet for stormdrain improvements and approximately 40 feet for rip rap placement.</p>	<b>NOD</b>	
2002058098	<p>COBCP-Restoration Project Parks and Recreation, Department of --Imperial</p> <p>Project consists of restoration work in approximately a 12-acre work site, and will remove non-native vegetation and concrete/brick objects/patio and patio cover at west side of visitor center and replace with new site amenities and path/trail to a restored open space area. Project also includes remodel/rehabilitation of visitor center. Additionally project plans to reduce 200-space/180,000 sq ft parking lot to approximately 50 spaces and 50,000 sq ft and restore area where asphalt is removed with native vegetation. Overall project is beneficial, as these changes will open up the view shed of the sea and scenic mountain backdrop, enhancing visitors aesthetic/educational experiences.</p>	<b>NOE</b>	
2002058099	<p>Lower Peters Canyon Conservation Easement Fish &amp; Game, Wildlife Conservation Board Irvine--Orange</p> <p>To acquire approximately 3.25 acres of land for the protection of habitat as a condition of mitigation.</p>	<b>NOE</b>

<b><u>Documents Received on Thursday, May 09, 2002</u></b>			
2002058101	Dock and Retaining Wall Installation Sutter County Yuba City--Sutter At two locations, install floating boat docks and construct retaining walls.	<b>NOE</b>	
2002058102	Gateway Addition, SDSU Building 72B California State University, San Diego San Diego--San Diego The Gateway Addition Project is an eight classroom addition to the Gateway Building, an existing classroom and faculty office building. The area is surrounded by campus uses and is not environmentally sensitive or of value as habitat. All required public services to support the project are in place. The modest size of the building area addition less than 10% of the existing faculty, and the conformance with existing land uses and architectural character, qualifies the project as a minor revision to the campus Master Plan in accordance with the State University Administrative Manual (SUAM) Section 9010.	<b>NOE</b>	
2002058103	Murrieta Creek Basin Bypass Project Fish & Game Eastern Sierra-Inland Deserts Region Temecula--Riverside The project consists of the grading of a stormwater bypass channel within the future Murrieta Creek Basin site. The grading will involve the removal of 600,000 cubic yards of material from approximately 95 acres of a 115 acre parcel.	<b>NOE</b>	
2002058104	Barton Flats Road Maintenance Project Fish & Game Eastern Sierra-Inland Deserts Region --San Bernardino The project consists of the removal of approximately 15 cubic yards of indigenous material (mostly sand and rock) from the 48-inch squash pipe culvert. Excavated material will be blown out from the pipe with a water truck on the upstream side of the culvert, and this material will be deposited on the clearing located between the road and the south side of the creek.	<b>NOE</b>	
2002058105	Visitor Center/Volunteer Trailer Installation Parks and Recreation, Department of --Madera Replace the previously existing ranch house (demolished for health and safety reasons) with a temporary 24x44 modular facility at Wassama Roundhouse State Historic Park to serve as a Visitor Center, storage, and event support facility for park events. Structure will remain in place until construction of a permanent park facility is possible. Installation will require construction of a new septic system, but other utilities will be supplied through existing facilities. An ADA-compliant parking space and access path will be installed; existing wooden perimeter fencing will be replaced to discourage uncontrolled park access. A DPR-qualified archaeologist and representative from the Wassama Association will monitor all ground-disturbing activities.	<b>NOE</b>	
2002058106	Penn Creek Bridge Replacement Parks and Recreation, Department of Trinidad--Humboldt Remove and replace the existing 36' footbridge over Penn Creek which is located on the accessible trail leaving Abalone Campground towards the campfire center.	<b>NOE</b>

<b><u>Documents Received on Thursday, May 09, 2002</u></b>			
2002058107	<p>Exotic Plant Control Parks and Recreation, Department of --Humboldt</p> <p>Remove exotic plants and encroaching conifers in six work sites to preserve coastal shrub and grasslands between Bear Harbor and Whale Gulch. No herbicides will be used. Weed wrenches, grip hoists, chain saws, and pulaskis will be used. Plant material will be disposed of by chipping, scattering, or burning. Each site will be field reviewed by a DPR qualified cultural resource specialist with the project lead to identify and flag exclusion zones of historic plantings.</p>	NOE	
2002058108	<p>CALFED Rock Slough Water Quality Improvement Project-Stream Flow and Water Quality Collection by Department of Water Resources Water Resources, Department of --Contra Costa</p> <p>DWR will install two temporary water quality-monitoring stations in Rock Slough and Werner Dredger Cut, tributary to Old River. CALFED has approved funding for the Contra Costa Water District's (CCWD) Rock Slough Water Quality Improvement Project. The CCWD is a public agency supplying drinking water to about 430,000 residents in Contra Costa County. CCWD also supplies water for city and industrial uses throughout the County. CCWD diverts water from Rock Slough in the Delta via the Contra Costa Canal. Salinity measurements in the Contra Costa Canal have at times been considerably higher than measurements taken in Old River near Rock Slough. This increase implies apparent water quality degradation along Rock Slough and/or the Contra Costa Canal. Since DWR has experience installing and operating flow monitoring devices, CCWD has requested that DWR assist by installing, operating, and maintaining two acoustic doppler current profilers and two multiparameter water quality instruments. Monitoring stations in Rock Slough and Werner Dredger Cut will measure channel flow and analyze water quality samples for salinity, organic carbon, and pathogens. Each station will consist of an acoustic doppler and multi-parameter instrument mounted together on a cradle system (footprint of 2'by 4'). Divers will position each station at a sufficient depth to avoid problems to or from boat traffic. Four rebar will be hand-driven with an extension pole to secure the cradle to the channel bottom. Data from each acoustic doppler will be retrieved monthly through a cable connection, which runs up the bank and onto the levee. The Water Quality Instruments will be retrieved (also from a boat) a minimum of twice a month for maintenance depending on the amount of fouling which takes place on the probes. Water quality data will be retrieved during routine maintenance. Each monitoring station will be retrieved when the internal battery supply (recorded with acoustic doppler data) approaches the minimum level of operating voltage for the system.</p>	NOE	
2002058109	<p>Maintenance and Rehabilitation of Recreational Facilities on the Oroville Recreation Area Water Resources, Department of --Butte</p> <p>The proposed projects involve maintenance, or minor improvements in existing Oroville recreational facilities. Individual project goals include improved public safety, access, aesthetics, sanitation, and education. Project beneficiaries include the California Department of Water Resources, California State Parks, California Department of Fish and Game, as well as local and State recreational users.</p>	NOE

2001081022	Clovis Surface Water Treatment Facility-Analysis of Three Alternative Sites Clovis, City of Clovis--Fresno Select a site for a surface water treatment plant.	<b>Neg</b>	06/10/2002
2002032080	Sacramento Rail Depot Acquisition and Site Improvements, CIP#CF36 Sacramento, City of Sacramento--Sacramento The acquisition and site improvements of the Sacramento Southern Pacific Railroad Station (The Depot) located at the northeast corner of Fifth and "I" Streets. The City plans to acquire the property for public purpose to ensure the continued public transit functions at the site. The project has a two-fold purpose; 1) to ensure the continued public transit functions at the site, including public investments by acquiring The Depot and REA Building, and the surrounding 4.1-acre property, and 2) to upgrade existing site elements (principally parking and landscaping to address immediate safety concerns (increased public safety and better circulation) and ADA deficiencies, and to prevent further deterioration of the site. Site improvements will include: Repair and upgrade surface parking lot drainage; Repair and maintenance of existing parking facilities through replacement of asphalt surfaces and installation of new striping; Install new building pavement; Design and install landscape planters; Engineer and build ADA curb ramps; Install parking lot lighting; Design separations and build structures to keep pedestrians away from automobile and rapid transit modes of transportation.	<b>Neg</b>	06/10/2002
2002051048	Boating and Instruction Safety Center Ventura County Oxnard--Ventura Boating Instruction and Safety Center, would provide training in sailing, rowing, kayaking, and canoeing from local public schools and California State University channel Islands, center would include a 2-story main building (18,807 square feet) and a one-story maintenance building (1,000 square feet).	<b>Neg</b>	06/10/2002
2002051049	Shaw Valley Equestrian Trail San Diego, City of San Diego--San Diego The current study, conducted for the proposed Shaw Valley Hiking/Equestrian Trail project, was completed in compliance with City of San Diego and California Environmental Quality Act (CEQA) requirements. The study area is located in the Carmel Valley area of the City of San Diego, east of Interstate 5, and south of Shaw Ridge Road and Shaw Valley. The project area is shown on the Del Mar, California (1968) 7.5' USGS topographic map and the City of San Diego 800' scale map. The proposed Shaw Valley Hiking/Equestrian Trail is part of the Neighborhood 10 Equestrian/Hiking Trail system that will provide an uninterrupted equestrian/hiking trail system throughout Neighborhood 10, with direct links to the CVEP trail consisting of 463 m (1,519 linear feet ) of existing trail and 1,215 m (3,985 linear feet) of new (impacted) trail. The cultural resource study included a literature review, record search, and field survey. Literature information and site records on recorded cultural resources within a one-mile radius of the study area were obtained from data provided by the South Coastal Information Center at San Diego State University. In addition, early maps were checked for historic resources.	<b>Neg</b>	06/10/2002

2002051060	EA DM 1-02, PD Plan #17, Map 102-10 (Varner Bros. Inc by Dan Richard) Kern County Planning Department Bakersfield--Kern Precise development plan to allow the development of a corporation yard and transportation facility. The intent is to establish contractor's storage yard with offices and truck/equipment repair facilities, for a large volume refuse collection service. The site is an undeveloped, 6.81 acre parcel. The project includes: (a) 7500-square feet of office space; (b) truck and equipment maintenance, repair, and washing facilities, which will include a 4000 square-foot ship; (c) above ground fueling tanks; (d) parking for 76 vehicles, and (e) outdoor storage for 62 trailers and "rolloff" waste collection boxes. The operation involves the pick-up of primarily construction and industrial waste which is transported directly to specified facilities/landfills and off-loaded. Short term storage of these waste materials will occur occasionally when off-loading facilities are unavailable. No friable asbestos; or putrescible, hazardous, or specified waste will be stored at this site. Additionally, no sandblasting or painting activities will occur at this site.	<b>Neg</b>	06/11/2002
2002051061	EASF1-02; (a) Amend. of Z- Map 101, Z- Change #128; (b) Z- Var. Case 49, Map 101; (c) Vest. Tent. Tract 6085; (d) Re- for waiver of Sig. of Min. Rights Owners Railroad Museum, California State Bakersfield--Kern The project site consists of 78.24 acres that are currently under cultivation located south of Rosedale Highway between Nord Avenue and Wegis Avenue or the north side of Palm Avenue in the Rosedale area. The requested action includes a zone change to allow rural residential development, a zone variance to allow the proposed drainage sump lot to be less than the one-acre minimum parcel size required by the proposed zoning district, and a vesting tentative tract that will result in the subdivision of the property into a maximum of 62 residential lots ranging from 43,560 square-feet (net) to 55,286-square-feet (net) where 43,560-square feet (net) is the minimum parcel size. Access to the site is from Wegis Avenue, Palm Avenue, and Nord Avenue. Sewer service is proposed to be by private septic system, and water is proposed to be provided by the Vaughn Water District.	<b>Neg</b>	06/12/2002

2002058161	Pilot Butte Wetland Restoration Project Regional Water Quality Control Board, Region 5 (Central Valley), Redding --Modoc Restore degraded wetlands back to historical drainage.	<b>NOE</b>	
2002058162	U.C. Regents Butano Property Acquisition State Coastal Conservancy --San Mateo Acquisition of 80 acres of watershed and forest land to protect watershed and old-growth forest land and preserve open space.	<b>NOE</b>	
2002058163	2002 Sewer Lateral Replacement Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe --Placer Replace existing sewer laterals at 20 residences	<b>NOE</b>	
2002058164	Hiller Park Loop Trail McKinleyville Community Services District --Humboldt The Hiller Park Loop Trail was informally constructed by the community many years ago and has been heavily used ever since. The McKinleyville Community Services District has, over the course of the years, maintained and provided for small improvements along this approximately one-mile long section of trail. The District plans to formalize this section of trail by making it ADA accessible, providing an interpretive guide, signage and wildlife viewing opportunities. Due to the fact that this facility already exists and we plan to only provide for improvements to the current trail network.	<b>NOE</b>	
2002058165	Austin Road Bikeway Project Phase I Clearlake, City of Clearlake--Lake Dig out, widen, & reconstruct and with 12" Class II A.B. & 4" A.C. pavement, storm drainage improvements.	<b>NOE</b>	
2002058166	Dispersal of Ponderosa Pine Seeds in Gooseneck Adaptive Management Area California State University Trustees --Siskiyou The purpose of this research project is to gather information related to squirrel behavior in the caching of ponderosa pine seeds. Pine seeds which have been radio labeled are placed near select trees and then relocated after dispersal/caching by squirrels. The radio labeling allows researchers to relocate the seeds, thus gaining information about dispersal/caching behavior.	<b>NOE</b>	
2002058167	Artifact Storage Building Parks and Recreation, Department of --Riverside Project consists of replacing an existing 12'x16' wooden shed surrounded by asphalt paving with an addition to the existing Artifact Storage Facility (a 20'x30' structure on a concrete foundation over previously disturbed soil with no natural/cultural resources). Minor grading will be required to provide drainage and accommodate ADA access. A van accessible parking space will be delineated at the entry gate. The surrounding storage areas within the compound are exposed dirt over previously disturbed, non-sensitive soil, and will be paved and fenced at a future date. The project will have no effect on exterior orange groves.	<b>NOE</b>

2002058168	Old Town SD-Install Power Outlets for Stage Area Parks and Recreation, Department of --San Diego Project consists of installation of electrical power outlets from historic reconstruction to existing light standards in grassy plaza area of park, and will involve hydro boring under previously disturbed pedestrian walkway and trenching in previously disturbed grass area. Structure will not be affected.	<b>NOE</b>	
2002058169	Water Treatment Facility Parks and Recreation, Department of --Riverside Project consists of upgrading existing water treatment facility within Lake Perris SRA, by replacing media of 3 sand filters, installing interior baffling and associated yard piping at chlorine contact tank, and installing bench monitoring equipment within existing equipment building. Project will require a 50' long x 1 /2 wide x 3 to 4' deep trench at tank periphery, within previously disturbed soil under a gravel base with no known resources.	<b>NOE</b>	
2002058170	Emergency Leachfield Replacement Parks and Recreation, Department of --Riverside Project consists of emergency replacement/enlargement of leach field for public restrooms at historic park for public health reasons, which involves an excavation of approximately 200' long x 20' wide x 4' deep in soil with no known cultural resources. Existing surface will be restored.	<b>NOE</b>	
2002058171	Torrey Pines SR-Revised Volunteer Native Plant Propagation & Nursery Parks and Recreation, Department of San Diego--San Diego Project consists of the collection and propagation of native plants for gardens/restoration projects at the reserve in soil that has no known cultural sites.	<b>NOE</b>	
2002058172	Hazardous Waste Facility Permit Modification to Extend the Date of Signature of an Enforceable Agreement at Naval Air Weapons Station Toxic Substances Control, Department of --Kern Approval of a Class 1 permit modification will extend the due date to November 8, 2002. This is the second extension of the due date. The additional extension is needed to continue the negotiations on the agreement, and to acquire approval of the other State agencies that are involved in addition to DTSC and the Department of Defense.	<b>NOE</b>	
2002058173	Approval of Removal Action Workplan for Former Mercury Dry Cleaners Toxic Substances Control, Department of Pinole--Contra Costa The proposed project is approval of a Removal Action Workplan (RAW) which proposes to excavate and dispose of offsite soils with concentrations of chlorinated solvents, primarily perchloroethylene (PCE), above the residential cleanup goals. The former Mercury Dry Cleaners Site is located in the Pinole Valley Shopping Center, in a mixed residential and commercial area. The Site is zoned for commercial use and is expected to continue to be used as a shopping center. PCE was detected in site soils up to 920 parts per million (ppm). Contaminated soils will be removed from the Site to achieve the health-based residential cleanup level of 5.7 ppm PCE. Approximately 450 cubic yards of contaminated soils will be excavated and removed from the Site. The excavated	<b>NOE</b>

2002042032	Powerhouse Stabilization Parks and Recreation, Department of Folsom--Sacramento Install seismic retrofit, reconstruct historic features, upgrade security, remove exotic plants from channels and forebay, rehabilitate or repair equipment, add A.D.A. accessible parking, and upgrade interpretive exhibits.	<b>NOD</b>	
2002059025	Streambed Alteration Agreement for Notification #02-0082 Redding, City of --Shasta The California Department of Fish and Game is executing a lake and streambed alteration agreement pursuant to section 1601 of the Fish and Game Code to the project applicant, [Mr. Lyle Tullis representing Tullis and Heller]. The project proposes the installation of a flood stage drainage inlet on an Unnamed Tributary to Boulder Creek, and an outfall structure with energy dissipater into Boulder Creek, Shasta County.	<b>NOD</b>	
2002059026	Streambed Alteration Agreement for Notification #02-0065 Forestry and Fire Protection, Department of --Humboldt The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1603 of the Fish and Game Code to the project applicant, Mr. Gerhardt E. Larsen representing Simpson Timber Company. The applicant proposes to install 24" diameter CMP culverts at two existing road crossing locations in connection with partial decommissioning of a timber harvest access road on Main Fork Maple Creek, tributary to Maple Creek, Humboldt County.	<b>NOD</b>	
2002059027	Streambed Alteration Agreement for Notification #02-0109 Fish & Game #1 --Humboldt The California Department of Fish and Game is executing a lake and streambed alteration agreement pursuant to Section 1601 of the Fish and Game Code to the project applicant, [Mr. Richard French representing himself]. The applicant proposes to do various fish habitat restoration projects on Box Canyon Creek, a tributary of the Mattole River, Humboldt County. Project is to improve quality and quantity of summer and winter salmonid habitat in upper South Fork Bear Creek through the installation of 12 in-stream log cover structures.	<b>NOD</b>	
2002059028	Streambed Alteration Agreement for Notification #02-0066 Fish & Game #2 --Humboldt The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1603 of the Fish and Game Code to the project applicant, (Mr. Gerhard E. Larsen representing Simpson Timber Company). The applicant proposes to install nine crossings for timber harvest activities on Unnamed Tributaries to Salmon Creek, Humboldt County.	<b>NOD</b>	
2002059029	Streambed Alteration Agreement for Notification #02-0064 Redding, City of --Shasta The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1603 of the Fish and Game Code to the project applicant, Mr. Travis Deem representing Mountain Properties, Incorporated. The project proposes the installation of six (6) culvert crossings	<b>NOD</b>

<b><u>Documents Received on Wednesday, May 15, 2002</u></b>			
	appurtenant to installation of an access road and an 8" diameter sewer main to serve the Stanford Hills Subdivision, Tract No. S-40-90, by City of Redding, on an unnamed tributary to the Sacramento River, Shasta County.		
2002059030	Streambed Alteration Agreement for Notification #02-0102 Fish & Game #1 --Siskiyou The California Department of Fish and Game is executing a lake and streambed alteration agreement pursuant to section 1603 of the Fish and Game Code to the project applicant, [Mr. Gary Black representing the Siskiyou Resource Conservation District]. The applicant proposes to do various fish habitat restoration projects on South Fork Scott River, a tributary of the Klamath River, Siskiyou County. The project is for the installation of self-cleaning fish screen and by-pass pipe in South Fork II Irrigation Ditch to prevent movement of adult or juvenile salmonids into the irrigation ditch, and allow for flows and excluded fish to return into the main stream.	<b>NOD</b>	
2002058177	El Dorado Couty Juvenile Hall Exercise Yard Roof Addition El Dorado County Placerville--El Dorado Provision of a 49'-0 x 34'-0 steel roof structure over the existing north exercise yard, including (6) support columns, (8) ceiling mount light fixtures, two skylights, and the relocation of a storm drain to avoid column footings in existing asphalt driveway.	<b>NOE</b>	
2002058178	Issuance of Streambed Alteration to Agreement #02-0138, an Unnamed Intermittent Stream, tributary to French Creek Fish & Game #1 --Siskiyou The project will install and subsequently remove a temporary combination Humboldt-culvert pipe crossing at a timber harvest skid trail in connection with emergency timber salvage operations for Timber Harves #2-02EM-0048-6-Sis.	<b>NOE</b>	
2002058179	Issuance of Streambed Alteration to Agreement #02-0112, Cottonwood Creek, tributary to the Sacramento River Fish & Game #1 --Shasta The project will replace the existing Pacific Bell communications trunk lines across Cottonwood Creek in Shasta and Tehama Counties, necessitated by replacement of the existing County Road Main Street bridge with a new bridge crossing. The communications lines will be placed within four (4) - 4" diameter plastic conduits, will be open trenched for approximately 450 feet within the high flow flood plain, and will be jacked and bored between jacking and receiving pits located outside the active low flow channel for approximately 450 feet. The new conduits will have negligible additional capacity than the abandoned conduits.	<b>NOE</b>	
2002058180	Issuance of Streambed Alteration Agreement #02-00122, Bull Creek, Siskiyou County Fish & Game #1 --Siskiyou This project proposes the replacement of an existing flatcar bridge and the repair of the existing log abutments appurtenant to the bridge crossing, on Bull Creek tributary to McCloud River. The project represents the replacement and repair of an existing facility with no expansion in use.	<b>NOE</b>

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Wednesday, May 15, 2002</u></b>			
2002058181	Issuance of Streambed Alteration Agreement #02-0089, South Fork of the Trinity River Fish & Game #1 --Trinity The project allows for the extraction of up to 1,000 cubic yards of gravel from the dry gravel bar of the South Fork Trinity River. The extraction area will be approximately 100 feet wide by 300 feet long horizontally, will not result in depressions lower than the adjacent gravel bar, and will be no deeper than one foot above the live channel water surface.	<b>NOE</b>	
2002058182	Issuance of Streambed Alteration Agreement #02-0067, un-named tributary to Flat Creek Fish & Game #1 --Shasta This project will install a culvert crossing for a new driveway to a building site. Rock slope protection will be installed along the bank created by the driveway, adjacent to the culvert inlet and outlet. The project is located on an un-named tributary to Flat Creek, Shasta County. The project represents a minor alteration in the condition of land and water with no removal of mature trees.	<b>NOE</b>	
2002058183	Issuance of Streambed Alteration Agreement #01-0440, Un-named tributaries to North Cow Creek, Shasta County Fish & Game #1 --Shasta The project will install three (3) 18" diameter culverts on unnamed tributaries to North Cow Creek, to allow driveway access to existing lots. The project represents a minor alteration in the condition of land and water with no expansion of use, and will not involve the removal of healthy trees.	<b>NOE</b>	
2002058184	Issuance of Streambed Alteration to Agreement #02-0060, unnamed tributary to Jacoby Creek Fish & Game #1 Arcata--Humboldt The project will construct a seep well along the bank of an unnamed tributary to Jacoby Creek, Humboldt County. The seep well will be used for domestic water supply for one household.	<b>NOE</b>	
2002058185	Geotechnical Drilling for the Greenwood Creek Replacement Project Caltrans #3 --Mendocino The project consists of drilling approximately 19 test bores (1-2 at each proposed abutment sand piers, 3 at each retaining wall) to sample the soil's profile. Each test bore will be approximately 6 inches in diameter by 100-200 feet deep. The profile will be used to design bridge supports (footing and piers) for a replacement bridge.	<b>NOE</b>
